

How to Get NordVPN With an Activation Code

Follow these easy steps to get NordVPN with an activation code. To get started, head to <https://my.nordaccount.com/activate/>

Step 1

Enter your **activation code** into the first box, then type your email and click Continue.

Enter your activation code

Enter your email

We'll create account for you or use the one you already have

Continue

Step 2

Open your email and **check for the verification code** in your inbox.

Verify your email with:

NA - 855127

The code will expire in 60 minutes. You'll need to restart registration to get a new one.

Step 3

Copy the verification code from the email we sent you and **paste it into the box.**

Verify your email with:

NA -

Didn't get the code? [Try again](#)

Step 4

If you're new, create a password for logging in to your NordVPN apps. If you already have a password, type your old password into the box to log in.

Create password
